Mark Freiberg, Director
Office of Environment, Health & Safety

RE: Delegation of Authority – To Negotiate and Execute Environmental, Health, and Safety Permits and Licenses

Pursuant to the authority delegated to me by the Chancellor (see attached), effective June 15, 2007, I am redelegating to the Director—Environment, Health & Safety, the authority to negotiate and execute environmental, health, and safety permits and licenses subject to any restrictions imposed by applicable laws and regulations governing signatories to permit applications required in connection with activities or services at the University of California, Berkeley.

All permits, licenses and related agreements under this delegation must be executed in accordance with the applicable University policies and procedures governing the particular transaction, including but not limited to, Business and Finance Bulletins, University policies and relevant guidelines issued by the appropriate functional areas within the Office of the President. All permits, licenses and related agreements must be approved as to legal form by General Counsel prior to execution unless previously approved by that office and issued without revision.

Within the scope of this delegation, you are authorized to negotiate and execute such permits and licenses except those which contain provisions that require approval of The Regents because of a specific Regental Policy, or require approval by the President pursuant to existing Standing Orders or specific memoranda issued from time to time.

This redelegation supersedes previous redelegations on this matter. Please contact Campus Delegations Coordinator Cindy Major in the Chancellor's Communications & Resource Center (642-3115; cmajor@berkeley.edu) with any concerns or questions regarding this delegation of authority.

Steve Lustig
Associate Vice Chancellor - Health & Human Services
